

ADVENTURE OPEN

The sea is not static and why should a boat be? We are all individuals and we all have our ideas. Conditions and Application vary all around the world so why not build your own ASIS boat the way you want it.

The OPEN range offers total versatility and is individually designed and manufactured to meet the needs and requirements of every different commercial application worldwide. With its large on-deck and under-deck storage the Open boat allows you total freedom for the arrangement or storage of your equipment according to their use. The ASIS individual customization allows for the perfect set-up for your application. ASIS Open Rib's ranges from 5.1m to 9.5m depending on your requirements and conditions you will be using the craft.

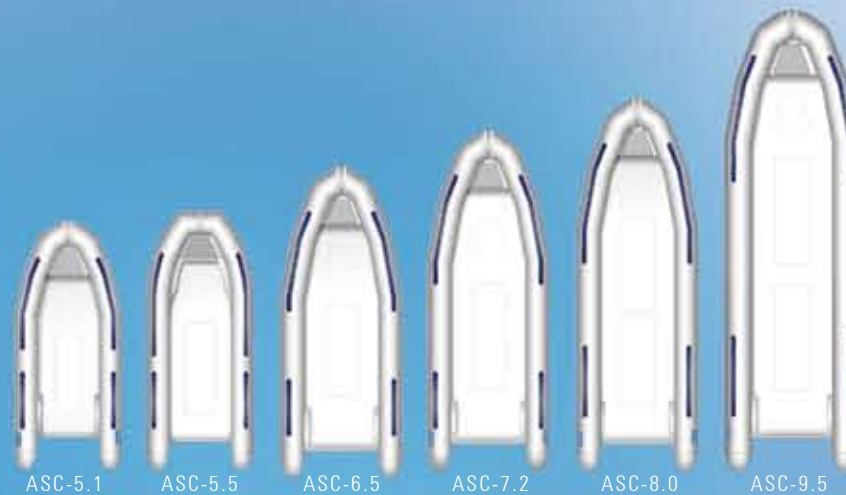

Once you choose your boat, you will have the recommended list of accessories available to customize your Open for diving, fishing, water-skiing, rescue or purely commercial. The OPEN boats are built safe, strong and reliable. It's designed deep V-hull gives you the best performance and handling even in the roughest waters.
